**The Current Saturn Neptune Pattern began with the conjunction in 1989 and ends with this last square in 2016. A new Pattern begins in Feb of 2026 with the next Conjunction.**

Saturn operates in the Middle World Reality or This Reality, limited by our physical experience. Neptune operates in the Celestial World Reality, beyond the physical, in the realm of Spirit where anything is possible.

Saturn is about boundaries. Neptune is about the boundlessness. Saturn (form) is needed for Neptune (formlessness) to express unlimited possibilities through experiential form. A blank artist's canvas has the potential to be anything. A completed painting is limited to a specific form or expression that when done masterfully has the power to inspire through the story it tells.

From Neptune's perspective anything is possible and that assists Saturn to stretch into more possibilities. This combination challenges the judgments and limits of Saturn that may be expressed through rigid middle world views and helps ground our more celestial world visions into concrete form. Said another way, Saturn provides disciplined focus, and practical know-how to ground Neptune's vision of possibilities in sustainable structures.

Saturn is about Facts. Neptune is about Faith.

Neptune Saturn Natal Dynamic Aspects, often expresses as the interaction and synthesis between the Puer/Puella/Eternal Youth archetype together with the Senex, or Wise Old Man/Woman/Elder

## Quotes from Abraham Lincoln

**Born Feb 12, 1809 during Saturn Neptune conjunction of 1809**

You cannot escape the responsibility of tomorrow by evading it today.

Most folks are as happy as they make up their minds to be.

I have always found that mercy bears richer fruits than strict justice.

The probability that we may fail in the struggle ought not to deter us from the support of a cause we believe to be just.

My dream is of a place and a time where America will once again be seen as the last best hope of earth.

Any people anywhere, being inclined and having the power, have the right to rise up, and shake off the existing government, and form a new one that suits them better. This is a most valuable - a most sacred right - a right, which we hope and believe, is to liberate the world.
