

# The Basics of a Mercury Synodic Cycle

- Mercury's Synodic Cycle lasts on average 120 days
- The Synodic Cycle always begins with Mercury Stationing Direct
- The point of Direct "motion" for Mercury shows the sign/archetype of the Overtone
- Mercury can go through up to 6 signs during the 120 days of its synodic cycle

- If a person was born when Mercury was an "evening star", there can be 4-6 different signs a person can have as an emerging mind
- If a person was born when Mercury was a "morning star", there can be only 1 or at most, 2 signs, a person can be as an emerging mind.
