

Counting the Number of Signs Before and with your Natal Mercury Sign

- First, check an Ephemeris or using Astrology software to determine when the most recent time Mercury stationed direct
- From that point, count the number of astrology signs Mercury traveled through until you reach your original birth
- Including your Mercury birth sign, you now have the total. It can be between 1-6
- An example, Erik Roth was born 11/25/1971 and has Mercury in Sagittarius (22 degrees from the Sun). The most recent time Mercury stationed direct was August 5, 1971 in the sign of Leo. Counting Leo, then Virgo, then Libra, then Scorpio and finally Sagittarius on his birth. The total reaches 5 for Erik
