

THE SAGAS OF VENUS AND MARS

by Daniel Giamario

Designed by Cayelin K Castell

Each Saga begins with the Mars Opposition and features the patterns of Venus and Mars when they are within 10 degrees. Some are visible in the morning sky, some in the evening sky and the Underworld Saga there are NO visible meetings of Venus and Mars. *There are only three patterns, three Sagas, three Stories.*

The Rapunzel/Dumuzi Saga has a short evening (West) meeting and a long morning (East) meeting. Mars always disappears into the underworld first after the evening union. A union is defined as being within 10 degrees.
