## The Shamanic Astrology “Script” for the Natal Chart

The script consists of three distinct aspects, or movements, as in a symphony. These aspects are the *thesis*, or first movement, the *antithesis*, or second movement, and the *synthesis*, or third movement. The *thesis* deals with the past life themes, or original identity. The *antithesis*, or counterpoint, deals with the tools, equipment and strategy for the current life. The *synthesis* is the current life purpose or the personal medicine wheel. Here’s an outline of how this works.

<b>Thesis - Lineage</b>	<b>Antithesis - Tools</b>	<b>Synthesis – New</b>
<p><b>Moon</b> Represents the lineage - Past life themes, family history, genetic encoding and the Tribe you come from. The training you have already taken, what you mastered coming into this lifetime.</p>	<p><b>Sun</b> - The fuel, not "life purpose," but the fuel we burn to reach "life purpose". Not archetype specific unless conjunct Venus or Mars. Only two-fifths of people are like their "Sun Sign" descriptions</p> <p><b>Vesta</b> Sacred qualities, interests and duties to emerging Self; Sacred Devotion/Inner Hearth</p>	<p><b>Angles of the Chart</b>  <b>Ascendant (ASC or AS)</b> The Personal Identity Project                      "The 12 Paths of Enlightenment"  <b>Descendant (DSC or DS)</b> The Partnership Project  <b>Midheaven (MC)</b>                      The Right Livelihood Project  <b>Bottom Of Chart (IC)</b>                      The Home And Roots Project</p>
<p><b>House Position Of The South Lunar Node</b> Indicates the job you had in your tribe or the specialty you had in your previous training</p>	<p><b>Venus</b> - Principle archetype of the feminine. On a woman's chart the specific feminine imagery for the current life. The emerging Goddess.</p> <p>On a man's chart this represents the anima or the magical feminine " i.e. union with one's inner partner.</p>	<p><b>The House Position of the North Node</b>                      further clarifies the life purpose projects. Used in combination with any of the four angles it helps determine your new job in your new tribe or your new specialty in your new training.</p>
<p><b>Planets Near The South Node</b> represent a specific skill from previous training</p>	<p><b>Mars</b> - Principle archetype of the masculine. On a man's chart the specific masculine imagery for the current life. The emerging God.</p> <p>On a woman's chart this represents the Animus or inner masculine i.e. union with one's inner partner.</p>	<p><b>JUPITER</b> - fastest path or the kinds of activities for reaching current life goals quickly.                      Personal "path of enlightenment"                      Planet of the "vision quest"</p>
	<p><b>Mercury</b> - Current life mental cognitive thinking capacities. Emerging perception and communication style.</p>
